Made in Odense, Denmark

# Made in Odense, Denmark

*We are so ready for this lighting season with some new and exciting ideas.*

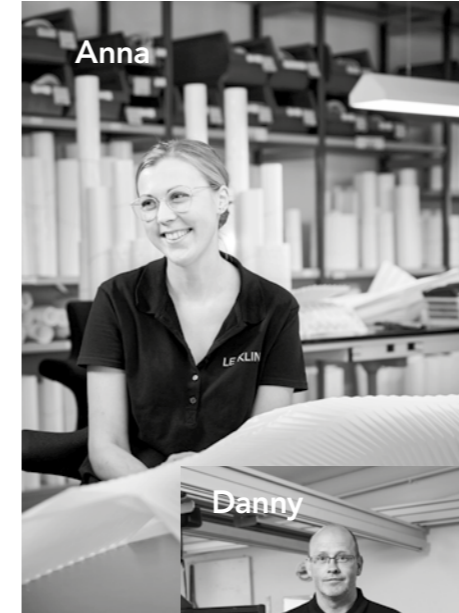

*SHIBUI is a new design from the most recent member to join the LE KLINT design family, Søren Refsgaard. We really love his Japanese inspiration, which shines through in the products. It is a complete series for the modern home with a nod to the past. SHIBUI represents old school cool.*

*On a personal note, it is a great pleasure to also introduce a brand new product from Poul Christiansen. GALAXY is a tribute to his 50<sup>th</sup> anniversary of the Sinus Line designs and of course both series like all other LE KLINT lamps, are made right here in Odense Denmark.*

*Please enjoy and visit our Social Media and website pages for more information.*

*Best regards*
